Welcome to the 1st issue of the ACC newsletter—we hope you find the contents interesting and will feel able to make suggestions and contributions to it. We will be producing regular newsletters throughout the year and use them to invite service providers to make contributions and update us all on their work.

If you have any suggestions, comments or would like to help produce the newsletter please do ask a member of staff.

We hope you find this a useful way for us to update you and share information and ideas!

Transport and People Who Help Us

Our Early Years team will be focusing on transport – resources will include having a range of large and small vehicles available for children to play with and experiment with moving them around. Then we will move on to People Who Help Us sharing images and ideas of people who can support and guide us.
Partners supporting services at ACC

Health - ACC works closely with Health Visitors and Community Child Development Advisers — specifically during our Child Health Clinic on a Wednesday afternoon. These highly trained and specialised staff can provide advice, information, support and referrals on a wide range of health and health related services.

Speech and Language - ACC supports local Speech and Language Therapists and Assistants at a weekly session supporting families and children facing speech and language delay or challenges.

Volunteer at ACC

We welcome anyone interested in helping us to:
- Plan services
- Support sessions
- Help with this newsletter
- Attend meetings with Croydon and other agencies as a parent representative

Just ask any of the staff!
