Create a Time Capsule 01.06.20/04.06.20

This week in art, we are going to be creating a time capsule. We will be writing things to put in it on Tuesday, but today we are going to make the capsule using card. There will be a video later in the week of how we did it, but you can be inventive. Use the things you have around the house.

Make sure it has:

- Sealed ends so that you can keep things safely inside it
- It is decorated with foil to give it that metal look
- Add in fine details like screws or small windows
- That it has your name and the date displayed somewhere on the outside

Here are some images to get you thinking.
