Monday 25th November 2019

Dear Parents/Carers,

As part of our Science topic on ‘Animals, Including Humans’, we are delighted to inform you that we have booked a visit to the Natural History Museum, for Year Four. The children have thoroughly enjoyed their Science lessons this term and this interactive trip will provide a brilliant opportunity for them to review and consolidate their learning. During our time at the Natural History Museum, we will take part in two different workshops:

- Cutting Edge Workshop – children will handle, observe and compare a variety of mammal skulls and investigate the function of human and animal teeth.
- Investigate Centre – a hands on science centre where children can explore over 300 real Museum specimens including everything from dinosaur fossils to rare minerals.

This trip will take place on Tuesday 10th December. As our first session at the museum begins at 10:30am, we will be leaving school promptly by coach at 8:45 am in order to avoid rush hour traffic. We ask that children arrive in school at 8:30am. School gates will open earlier in the morning and Year Four children must go straight to their respective classes for morning registration. Our final session at the museum ends at 2:15pm; we will return back to school at 4pm (we will let you know if this is likely to change, on the day).

All children will require a packed lunch with a drink, in a small rucksack, as they will be eating their lunch at the Natural History Museum. Children must wear full school uniform and must bring a coat, for this trip.

The cost of the trip is £8.20, which covers the cost of the coach to and from the museum, as well as the two workshops.

We would be grateful if you could use the online service for payment and to give consent for your child to attend by ticking the permission box by Friday 6th December.

Yours sincerely,

Miss T Mehrotra
