How to Play

The aim of the game is to be the first person to draw a complete dragon. Each dragon part can only be drawn once the corresponding number has been rolled on the dice.

- = the dragon's body (x1)
- = the dragon’s horns (x2)
- = the dragon’s mouth (x1)
- = the dragon’s legs (x4)
- = the dragon’s eyes (x2)
- = the dragon’s head (x1)

1. Take it in turns to roll the dice.
2. You must roll a 6 for the dragon’s body before you can draw any other body parts.
3. Cross out each number/body part as you roll that number.
   (Note: some numbers will need to be rolled up to four times.)
4. The winner is the first player to draw a complete dragon.
