Marston Moreteyne VC School Home Learning for Closure

In the event of enforced closure, the school has provided a variety of Home Learning for each year group. We suggest that children may complete a minimum of two hours of work each day although this will be at parents’ discretion. Whilst this may not match the range or amount of work carried out in school, it will allow children to practice previously learnt skills and consolidate their knowledge.

Unfortunately, we have not been able to provide individually differentiated work, as we would do in school. However, should your child struggle with any aspect of the work set, parents can inform us that children have had a ‘good go’. You will also have access to other year groups work which may be better suited to your child’s needs.

We will be giving you access to work in a variety of different ways:

Home learning resources for pupils have been created with the goal of encouraging collaborative learning and allowing parents to support their children adeptly. They do not require parents, or indeed any adult, to have a breadth of curricular knowledge - the packs simply cover content from previous lessons that children will already have some understanding of.
