Describe different ways of paying 7p exactly.

Have a go at doing the same thing for 13p.

8 bricks balance an apple.
10 bricks balance a pear.
The apple and the pear are together on the scales.

How many bricks will balance them?

A full jug holds 6 cups of water.

How many cups of water do 2 full jugs hold?

Mathew’s party starts at 2 o’clock. It finishes at 6 o’clock.

How long is Mathew’s party?
