Dear parents/carers,

I would like to hold two maths information sessions, one for Cook and Jeffreys class, and another for Whittle and Attenborough class. During these sessions I would like to inform you about the current national curriculum targets for your children; give you ideas on how to help them achieve these in fun, practical ways; look at calculation methods used in school; and answer any questions you may have about maths in the school.

I sessions will be on Thursday 2nd February for Cook and Jeffreys class and Friday 3rd February for Whittle and Attenborough class, both will start at 3.30 and last approximately 30-45mins. Your children are welcome to attend and sit with you during the session. I obviously want to hold the sessions when as many of your can attend so if these times don’t work for many of you, I will look to rearrange. Please give me feedback on the reply slip.

Many thanks,

Mrs Sarah O’Dowd

Maths information sessions February 2017

I/We will be able to attend the maths information session on:

- Thursday 2nd February 2017 3.30pm  
- Friday 3rd February 2017 3.30pm

Number of adults .......................... Number of children..........................

Signed..................................................................................................................
Print Name........................................................................................................

If you want to attend but are unable to do so, please state the times that would suit you better:
