Dear Parents and Carers,

Maintenance Works

It will come as no surprise to those of you, who have seen the scaffolding around our school building this morning, that we are in the throes of having some much-needed maintenance work carried out on site.

All of our external doors have been replaced at the older end of the building (the Clinton Hill end) during the half term break and the building is once again secure for the children during the school day. Now the focus has turned to making repairs to the roof timbers, as well as repainting some areas of the building that are harder to reach without the scaffolding in place.

At the moment, with the weather on our side, works are progressing well and it is anticipated that the team will be with us for just another couple of weeks in total. However, as always with the best laid plans, this may need to change and I will keep you updated accordingly.

During this time, please note that the pathway that runs along the back of the building is OUT OF BOUNDS to all pedestrians. This is entirely for your own safety. We have navigated temporary fire routes for the classes situated along this side of the building, should there be a fire alarm during the remaining period of works. Other than this, we ask that no-one attempts to use this pathway, but instead use the main playground as access from one end of the building to the other.

In addition, while the scaffolding remains in situ, the following classes will be dismissed from a slightly different door at the end of the school day:

- Year R: please collect from below the upper decking outside the classroom (with Y1)
- Year 5: please collect from the playground main entrance (next to the staffroom, with Y4 and Y6)

Years 1, 2, 3, 4 and 6 will be dismissed from their usual locations, as will all clubs.

Many thanks for your patience in this matter.

Yours sincerely,
