Dear Year 4 Parents,

**Wednesday 26th April – E Safety Session at St Stephens School**

On Wednesday 26th April, we have been invited to take part in a county-wide provision for Year 4 children, organised by Surrey County Council, on the subject of ‘E Safety’, which we are sure you will agree is essential to the children’s current learning.

There is no charge for this session, but we have been asked to group together with three other schools in the area, and on this occasion St Stephens School in South Godstone will be hosting the session.

Whilst we do not have exact timings yet, we would like to run the day similar to our Ashdown Forest Programme in terms of transport and are asking parents now, who might be available to assist?

Miss Carter and two other members of staff will be accompanying the children on the day.

If you are able to help out with this trip, please contact the school office team.

Kind regards,

Dormansland Primary School
