Consequences

If children continue to make a poor choice, their name may be moved to red.

If this happens there will be a consequence and they may need to complete their learning somewhere else and fill in a reflection sheet. This reflection sheet will be followed up by our Learning Mentor who will track the children continuing to make poor choices. A behaviour plan may be put in place if appropriate.

Once they return to class they can then start making good choices and get back to green.

Whole Class Green Time

Each class has a green time each week, This will happen on a Friday and will take different forms depending on the year group.

If a child stays on green all week they will automatically gain ‘Green Time’.

Stay on Green

Stay on Green is our behaviour system that helps our children to make good choices about their behaviour and be noticed and rewarded when they make good choices.

This leaflet will give you more information about what Stay on Green is and how it works at Dormansland Primary School.
