26th May 2016

Dear Parents/ Carers of Year 6,

We have just 7 days until the SATs! I hope the children are feeling calm and prepared. They have been working very hard in class in the run-up to these end of Key Stage assessments.

Work done at home is also essential. In the final few days, it may be helpful for your child to prepare by looking over some of the key facts that underpin their learning in mathematics.

Attached is a revision booklet which covers:
- area and perimeter
- angles
- number
- fractions, decimals and percentages
- co-ordinates
- algebra
- roman numerals
- parts of a circle
- shape
- facts to remember

Kind regards,

Miss Standen
