RESOURCES NEEDED!

Dear Parents/ Carers,

As part of your child’s learning in our Ancient Greece topic, they are creating a temple for an Ancient Greek God. Through this, they will learn about ancient Greek religion, architecture and beliefs.

Your child has planned for their design and technology project but we need each child to bring the necessary resources. This will include cardboard and can also include any other objects that your child thinks they will need. Ask your child which God they have chosen. I’ve suggested, for example, that if it is Poseidon (God of the sea) they collect objects that relate to this (blue or green paper/ materials/ shells). We will be creating these next week (Thursday/ Friday).

Many thanks in advance,

Miss Standen
