Year 6 Homework
D + T project

As part of our topic, Britain since World War 2, I would like the children to provide resources for their own ‘shoebox living room’.

We will be creating our living rooms using decorating designs and patterns from the 1950s, 60s 70s, 80s or 90s.

They will need a shoebox and materials to create a living room in the style of one of these decades. They do not need to buy anything as the idea is to make them from everyday materials.

You may want to print out paper with patterns typical of the time/think about furniture shape/posters or wallpaper/the kinds of toys and objects (TVs, radios etc) that people would have had at the time.

We will be creating these in class during the week of 10th October and so your child will need everything in class by that date. Please provide a bag with your child’s name for them to keep their resources safe.
