E-Safety Parents Meeting
Thursday 22nd February 5p.m – 5.45p.m
In the Year 6 Classroom

Dear Parents,

Mr Sutcliffe and I would like to run a short e-safety information session for parents. E-safety is a term surrounding the internet but also other ways in which children communicate using electronic media e.g. mobile phones. E-safety is about ensuring that young people are protected from harm and supported to achieve the maximum benefit from new and developing technologies without risk to themselves or others. It will contain some of the latest information and advice, and hopefully a few helpful tips.
We would like to run the session for parents (only) after school on Thursday 22nd February 5p.m – 5.45p.m in the Year 6 classroom. Parents requiring provision for their child/children could perhaps use our after school care provision but this would be at a cost.

Kind regards,

Mr Tuckwell

Parent E-safety Meeting Thursday 22nd February 2018
5p.m – 5.45p.m
Venue: Year 6 Classroom

I .......................................................... (Parent name) of child in Year ........... will be attending the parent workshop on E-safety.
