Dear Parents/ Carers of Year 6,

The children of Year 6 have been selected for some 'Technical Pre-Tests' for the end of Key Stage Assessments. The government selects schools at random to take example tests for the next academic year. This year, our class has been selected to complete the Mathematics tests. As such, the children will be completing all three papers on the morning of Friday, 20\textsuperscript{th} April.

You do not need to do anything, apart from ensure your child is in school on time on the day. The tests will take place throughout the morning and as such we will have an extended PE session in the afternoon.

The results of the tests are for the government to use in tweaking the assessments for the next cohort – we are not informed of the children’s scores, nor do we get to see the papers once they have left the building on the day. The tests are administered by a government official, although members of Fairfield staff remain in the room to assist.

Many thanks for your understanding,

Mrs Norman and Mrs Semaine
