Dear Parents and Carers,

We are sending home revision homework for over Easter. There are maths, reasoning and arithmetic questions but also reading and grammar activities. There will also be revision materials on the website, but we are stressing that this is **optional**!

The children are working incredibly hard in school at the moment and no one deserves a break more than them. We are therefore actively encouraging them to also get outside and (hopefully) enjoy the sunshine!

The children are more than ready to complete these National Curriculum Assessments and as was stated at the meeting, they are only used as extra evidence towards our teacher judgements.

Thank you for all of the support and work you have done with your children so far this year! We are sure they will all do their best and we are proud of how far they have come.

The tests do not have to be completed on set days and we will therefore be doing the majority of our tests during the middle two weeks in May, when we feel the children are most prepared.

Please get lots of rest over the break and enjoy your time together.

We look forward to seeing you all in school on the 29th April for a busy Summer Term.

**Best Wishes**

The Year 2 Team
