Dear Parents/Carers,

This term in Art, we have been learning about different types of sculptures. Next week, we shall be creating our own sculptures made from natural materials and we need your help!

For homework, the children have been asked to collect a selection of natural materials that you may find outside. Such as: dry leaves, pinecones, conkers, sycamore seeds and twigs.

Have fun collecting and thank you for your support.

Kind regards,

The Year Two team.
