Reasoning and Problem Solving – Quarter Past and Quarter To

1a. How many quarters of an hour are between 2 o’clock and 3 o’clock?

1b. How many quarters of an hour are between 1 o’clock and 3 o’clock?

2a. Jason is trying to tell the time. It is 3 past 6.

Is Jason right? How do you know?

2b. Nia is trying to tell the time. It’s 4 o’clock.

Is Nia right? How do you know?

3a. Playtime is 15 minutes long. What time would it finish if it started at the time shown on the first clock?

3b. Playtime is 15 minutes long. What time would it finish if it started at the time shown on the clock?

Draw the minute hand on the clock and write the answer.
4a. How many quarters of an hour are between 2 o’clock and half past 3?

4b. How many quarters of an hour are between half past 12 and 3 o’clock?

5a. Dan is trying to tell the time.

In quarter of an hour it will be 4 o’clock.

Is Dan right? How do you know?

5b. Malaika is trying to tell the time.

It’s 5 past 3.

Is Malaika right? How do you know?

6a. Playtime is 15 minutes long. What time would it finish if it started at the time shown on the first clock?

Draw both hands on the clock and write the answer.

6b. Playtime is 15 minutes long. What time would it finish if it started at the time shown on the first clock?

Draw both hands on the clock and write the answer.
Reasoning and Problem Solving – Quarter Past and Quarter To

7a. How many quarters of an hour are between 12 o’clock and half past 4?

7b. How many quarters of an hour are between half past 2 and 5 o’clock?

8a. Tyler is trying to tell the time.

8b. Zoe is trying to tell the time.

Is Tyler right? How do you know?

Is Zoe right? How do you know?

9a. Playtime is 15 minutes long. What time would it finish if it started at the time shown on the clock?

9b. Playtime is 15 minutes long. What time would it finish if it started at the time shown on the clock?

Draw the hands and write the answer.
