Year 1 are reading, understanding and retelling the stories of The little Red Hen, The 3 Billy Goats Gruff and Cinderella. While learning the stories and using Talk for Writing, children are required to use capital letters and full stops to punctuate sentences correctly. To further help understand how a sentence is structured, children learn nouns and verbs and how they are used to create sentences. Children will be taught to use the Think, Count, write, Check technique to write clearly and self-improve their own writing. This will support children becoming more independent writers.

Design and technology
Children will look at food technology. They will learn more about food hygiene and keeping food refrigerated. After reading the Little Red Hen they will make bread and design and make a sandwich. All elements will be evaluated so children can reflect on their learning and consider improvements for the future.

Maths
Following the Whiterose Scheme, children will secure their understanding of numbers to 10 by counting forwards and back from any number. They will use their place value knowledge to learn number bonds to 10 while using pictures and objects to show their thinking. From this, they will transfer their skills to addition of any 1 digit number and the related subtraction facts.

Science
After reading The 3 Billy Goats Gruff, children will explore a range of materials in order to make a raft suitable for the 3 Billy Goats to cross a river. They will learn the names and properties of each material and know the difference between an object and the material it is made from. Rafts will be tested on water to see how well the children have chosen the correct materials.

During Autumn and Winter, children will take a walk round school to observe the changes in the weather and the seasons. They will record information from first hand observations.
