YEAR 2 FIRE ENGINE CHALLENGE

This half term Year 2 children will be participating in a Design and Technology Workshop linked to their work on the Great Fire of London. The aim of the workshop is to design and make a fire engine with a moving part which would help King Charles II to prevent a future fire.

We would like to invite you along to assist your child in this task. At school we are keen to promote male role models, so dads, grandads, uncles etc. are especially welcome.

The activity will last approximately 90 minutes and will take place at the following times:

**Wednesday 7th February 2.00-3.00pm—Classes 2NW and 2GO**

**Thursday 8th February 2.00-3.00pm—Classes 2RF and 2AO**

The workshop will take place in the Hall.

Your child will need a cardboard box; a shoe box would be ideal. Other materials and equipment will be provided by school. However, your child is welcome to bring along other junk materials, e.g. plastic yoghurt pots, tin foil, card rolls, paper/card, string/ribbon etc to use and share with others. Please fill in the form below with the name of your child and the name of the adult who will be coming along on the day of the workshop. Please return the completed slip by **Friday 2nd February 2018**.

I can/cannot attend the Fire Engine Challenge on 7th/8th February.
