Questions you may have:

1. **What should the children wear?** Children can attend in their own clothes, making sure they have suitable footwear for physical activity.
2. **What should the children bring?** A water bottle – clearly marked with their name.
3. **What time does it start?** The Year 6 gates will opened at 10am and close before the event starts at 10.30am. Please aim to be on site by 10.15 am at the latest.
4. **Can children sit anywhere?** No, there will be allocated seating in social bubbles. We will endeavour to keep them in friendship groups but requests cannot be made as to which group they are in and children will not be permitted to cross social bubbles across the day. However, as we are in such an open area, children will be able to see all the other children in the other bubbles all day.
5. **Can parents stay?** Unfortunately- No. Parents must leave their children on the playground with the school staff.
6. **What time should I collect my child?** Children must be collected by 3pm. If you would like your child to walk home alone then you must email or call us to provide permission.
7. **Will there be toilets available?** Year 6 pupils will be able to use the toilets however must ask an adult first so that we can direct them to the correct one. We cannot allow parents inside the building so toilets will not be in use for parents and carers dropping off and collecting children.
8. **Is it compulsory?** It is entirely up to families to decide whether to attend however we strongly recommend that every Y6 child attends. We would love to see all of the children before they move to secondary school and believe that it is good for them to say goodbye to each other and their teachers.
9. **What social distancing measures will be put into place?** We will ensure that seats are laid out in a way that adheres to social distancing guidelines with chairs in family bubbles. There will be a seating plan and children will queue in the playground before being taken to their seats by a member of staff. One member of staff will be responsible for this bubble all day. Throughout the day, children will be asked to wash their hands regularly, as well as this, they will be asked to regularly use anti-bacterial handwash. All food will be provided on an individual basis - all individually sealed - and there will be no sharing of food or utensils.
10. **Is it safe to come?** We have done our very best to minimise the risk to families and children. Families should follow guidance from staff when on site and maintain social distance from other families at all times.
