Garage Band Club

Dear Parents/Carers,

This term, as part of our wider curriculum provision, we will be running a computer music club for Year 3 and 4 based on the music production iPad app Garage Band.

What is Garage Band?

Garage Band is a program that allows children to record, create, edit, and share music. They will have the opportunity to choose from an assortment of virtual instruments that turn their device into an instrument or record using real instruments and vocals. They can record numerous tracks, and then layer them together using a selection of editing tools that can combine to create a professional grade audio track.

The club will take place in school on Thursday afternoons from 3:30pm until 4:30 pm commencing from Thursday 16th January 2020. The club will be led by Mr Orr.

If you would like to attend this after school club, please complete and return the form below to the school office as soon as possible as there will only be 20 places available.

Yours sincerely

Mrs D.Fance
Headteacher
