Dear Parents/Carers,

I hope that you and your families are continuing to stay safe and are prioritising your wellbeing.

Thank you so much to the parents that have sent in photographs of their children during lockdown. It has been lovely to see and hear about all the great things your children have been getting up to from cooking and completing some of the work set, to completing a 2.6km bike ride challenge (well done Alfie). If you would like your child included in next week’s newsletter and you are happy for the photographs to be shared with the school community, then please email the office on office@heathrowprimaryschool.co.uk
All the staff have loved seeing your photographs coming in so please keep sending them in and each week we will show them on the newsletter for all to see.

Today some teachers started calling you and this will continue next week. We just want to check in with you all and to see if there is anything that we can possibly help with and to check that you are alright. If in the meantime there is anything that you need to ask then please remember that the school phone lines are not being answered at this time and all enquiries are to go to the office email account on office@heathrowprimaryschool.co.uk

During these unprecedented times, we are continually looking to extend and adapt the programme of study we can offer to Heathrow Primary children at home. Thank you all for the feedback so far on the help and advice you would like to see from our teachers. Our teachers are working hard to put together videos of teaching concepts to help you support your children at home. As soon as these are ready to go we will let you know.

I cannot praise enough the efforts that you all are making to support your child’s education at home, often in difficult situations. The hardworking and resilient nature of Heathrow Primary children has come to the fore. However, as I stressed in my previous letter, no child is behind, they are simply where they need to be at this point in the Pandemic - at home and staying safe. All of our resources on the website and online learning apps are simply a guide for you. Going off plan and being guided by the children is one of the joys of education. Keep jumping in those muddy puddles, carry on with life skills in your houses, keep talking and sharing thoughts and laughter.

We miss you all and continue to be here for you. Keep smiling!
