Henley Green Young Carers Policy

Statement
Henley Green is committed to supporting young carers’ emotional, educational and personal development to enable them to aspire and achieve in education regardless of complexities of their personal needs and home circumstances.

This policy sets out how we will support Young Carers at school

Definition of a young carer
A young carer is a child or young person under the age of 18 living with and providing regular significant personal, physical or emotional care support to another family member, assuming a level of responsibility which would usually be associated only with an adult.

A child or young person can be caring for any of the following reasons:
- Parent or sibling with mental health problems
- Parent or sibling with a learning or physical disability
- Parent or sibling with an entrenched alcohol or substance misuse problem
- Parent or sibling with a chronic or terminal illness

Young Carers and the effect on their education
Being a young carer can have a serious adverse effect on a child/young person’s education. Because they struggle to balance their care responsibilities at home with expectations at school, a young carer is likely to regularly experience any one or more of the following:
- Being late or absent due to fulfilling care responsibilities at home
- Concentration problems in the classroom
- Emotional distress – anxiety, anger, fear, worry, self-doubt
- Mental and/or physical fatigue or tiredness
- Lack of time to complete coursework/homework on time or at all
- Academic underachievement relative to peers
- Physical problems such as back pain from lifting or other physical care duties
- False signs of maturity linked to assuming adult roles and responsibilities
- Attitudinal/Behavioural problems e.g. isolation; challenging; disruptive; disengaged
- Lack of time for extra-curricular activities at school or at home
• Aloof/Isolated - embarrassed to take friends home
• Limited social skills and missing on ‘normal’ childhood/adolescent life experiences
• Bullying – victim or perpetrator
• Feeling that no one understands or cares about them and that no support is available
• Low self-esteem and a feeling of being incompetent (often unjustified)

It also might be difficult to engage their parents (due to fears about child being taken into care, fears about their condition being misunderstood or their parenting skills being called into question). They may be unable to attend parents’ evenings.
