Please choose as many as you like of the home learning tasks below to complete with your child during the Easter Holidays. Please don’t forget regular reading (with questions)

Thank you for your support and have a happy Easter – The Year Two Team

**Plants:**

- Grow some spring bulbs. Keep a diary of what you observe. Labelled diagrams or photos would be great.
- Create a picture using natural materials such as twigs, leaves, seeds, grass… and photograph it.
- Look at different leaves on plants and trees. Can you identify them?
- Sort leaves into different categories based on texture, shape, size or colour.
- Use a leaf as a stencil, shade or colour over it to mark the outline of the leaf.
- Collect some flowers/petals and create a flower press. What do you notice about the colours and shapes of flowers?

**Animals:**

- Design the ideal home for a pet of your choice. Think about what it needs to be healthy and happy. Make a model or draw a labelled diagram.
- Make a chart about different types of animals. Choose 3 different animals from one of these groups: mammals, reptiles, birds or fish. Draw them and then explain three ways they are the same and one way that they are different.
