Tuesday 16th June

Hopefully you started some research on your chosen vehicle yesterday. Today we would like you to research the history of your vehicle. Can you find answers to these questions? (Don’t worry if you can’t, just find any information you can about your vehicle!)

When was your vehicle invented?
Who invented the vehicle?
Where was the vehicle invented?
Which year was the vehicle invented?

There is also a comprehension about Ford cars for you to do today. It does have some complicated words so you may need to have some help from an adult.
