Watch the video again and imagine yourself as the child. As you know, the girl goes on a journey on the bubble.

You are going to imagine that you are the child who has found the bubbles, and you are going to go on a magical journey on a bubble.

You can go wherever you like, remember it is a magical bubble that cheers you up!

If you have any bubbles at home then go outside, blow them around and talk about your magical journey first.

Then draw your journey on your bubble and label it to show where you go, and how you feel. Maybe you’ll go up into space, or visit a castle, or fly with the birds, or even go to a world made out of chocolate! You decide!
