27 April 2018

Dear Parents,

**Year 1 & 2**

**‘Life in 2086’ Design Competition**

We have been asked to participate in a design competition with ‘Arup’, who are a local engineering company. This coincides with their 50th Anniversary and enables our children to develop and promote their creative and design skills.

Using the form provided, the children must create a 2D picture. They may use pencil crayons, wax crayons, paints or felt tip pens to draw a picture to show how we might travel around, where we will work, shop and learn in 50 years’ time!

They want to see really creative, fun ideas to look at how people might interact with each other, our environment or technology in the year 2068!

If your child would like to be part of the competition please complete the form and hand it in to the class teacher by **Friday 4 May** (we have extended the original deadline).

Good luck and enjoy being creative!!

Yours sincerely

Beverley Elliott
Headteacher
