15 March 2017

Dear Parents

Year 1

During this half term our topic in Year 1 is called ‘Jungle Adventure’, and to coincide with this, our Science topic is ‘The Animal Kingdom’. Within Science we have been looking at many different types of animals and learning about their scientific classification, habitat and diet. To help consolidate your child’s learning we have given the children the option to complete a project based either on reptiles, birds, fish, mammals or amphibians. The project can be any animal that they choose and presented in whichever format they wish. For example this could include an A4 sheet, A3 sheet, a book format, etc.

The information for the optional homework will be sent home this coming Friday 17th March along with their usual homework. The completion date for return of the project is Wednesday 5th April. We hope that your child will embrace and enjoy this project and we look forward to seeing their completed work. Children’s completed work will be showcased within the Science area for the rest of the school to view. Thank you for your continued support.

Yours sincerely

Year 1 Team
