14 October 2019

Dear Parents

**Year 1 & 2 Mathematics Parent Workshops**  
**Tuesday 22 October 2019**

Following discussions with parents I would like to home some parent workshops aimed at explaining the approach to teaching mathematics at Marston Green Infant Academy.

The Academy has a strong focus on children applying their mathematics using concrete objects, pictorial representations as well as application in the abstract form. It is essential that children become fluent, are able to reason and can solve mathematical problems.

If you would like the opportunity to learn more about our approach, take a look at resources we use and ask questions regarding mathematics in Key Stage 1, then please come along to one of our workshops.

We are holding one afternoon session and one evening session in order to accommodate as many parents as possible. However, we may need to limit the number of spaces available, especially for the afternoon session. Therefore, please complete the slip below and return to school as soon as possible in order to secure your place.

Thank you in advance for your interest, and I hope that if you do attend a workshop, you will find it useful.

Yours sincerely

Mrs S Griffiths  
Maths Subject Leader
