Dear Parents/Guardians,

During the next half term, I will be holding parent workshops aimed at explaining the approach to teaching mathematics at Marston Green Infant Academy. In line with the national curriculum and popular approaches such as Singapore / Shanghai Maths, the Academy has a real focus on children applying their mathematics using concrete objects, pictorial representations as well as application in the abstract form. It is essential that children become fluent, are able to reason and can solve mathematical problems.

If you would like the opportunity to learn more about our approach, take a look at resources we use and ask questions regarding mathematics at Key Stage 1 then please come along to one of our workshops. I am holding a morning session and an evening session in order to accommodate as many parents as I can. However, I may need to limit the number of spaces available, especially for the morning session; therefore, please complete the slip below and return to school as soon as possible in order to secure your place.

Thank you in advance for your interest and I hope that if you do attend a workshop, you find it useful.

Yours Sincerely,

Mrs S Griffiths
Mathematics Subject Leader

Mathematics Parent Workshops
Please tick the appropriate box and return to school

I would like to attend the evening workshop on Wednesday 2 November at 6pm

I would like to attend the morning workshop on Thursday 3 November at 9.15am
