Dear Parents/Carers,

I hope that you have all had a restful and enjoyable Summer break with your children. Last year, we tried to ensure that parents were well informed of developments in the school and this year we would like to continue providing this information to parents through our termly Parents’ Forums.

I am inviting you to attend the following Parent Forums, which should be of interest to all parents. Each meeting will last for half an hour.

**State of the School Briefing:**
19th September at 9:00am in the school hall
19th September at 5:30pm in the school hall
This meeting should be of interest to all parents as we will have a chance to discuss initiatives which will be implementing this year. This will also be a chance to view school results before they are published by the government. **It is highly recommended that all parents attend this session.**

Furthermore, we will hold two additional meetings this half term, which will further explain some of our future plans in two core areas of school development:

**Digital Education (Cloud) Project - led by Miss Pindoria:**
26th September at 9:00am in the school hall
26th September at 5:30pm in the school hall
As most of you will know by now, a large scale project took place over the summer to update the technology that we are using in the school. This will outline our plans for further integrating digital technology into the curriculum.

**Sustainable Education (Earth) Project – led by Miss Burgess:**
3rd October at 9:00am in the school hall
3rd October at 5:30pm in the school hall
Some of you will be aware that we are also working towards further development of our curriculum to further develop pupil understanding of sustainability issues.

I look forward to seeing you all at these meetings.

Yours sincerely,

Mr Bradley
Headteacher
