To help support you, we have created a code for all schools which gives teachers and parents access to all of our resources. If you follow the two steps below, then you'll get access to our entire collection of resources for a full month.

Go to www.twinkl.com/offer

Enter the code: UKTWINKLHELPS

It's as simple as that, this should have you set up with the Ultimate package for a month. If that's not the case or if you have any questions, be sure to let me know.

We will be reviewing how we can continue to support schools during this time and we provide updates when needed to keep you informed :)

Best wishes,

Amy
