NEYLAND COMMUNITY SCHOOL

Online Safety Policy

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school.

Development/Monitoring/Review of this Policy

This online safety policy has been developed by a working group made up of:

- Deputy Headteacher (in consultation with the Headteacher)
- Online safety officer
- Staff
- Governors
- Parents

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for Development/Monitoring/Review

<table>
<thead>
<tr>
<th>This online safety policy was approved by the Governing body on:</th>
<th>Autumn Term 2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>The implementation of this online safety policy will be monitored by the:</td>
<td>Online safety officer, Online Safety group and SLT</td>
</tr>
<tr>
<td>Monitoring will take place at regular intervals:</td>
<td>Once a year</td>
</tr>
<tr>
<td>The Governing Body will receive a report on the implementation of the online safety policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:</td>
<td>Once a year at least/ termly if needed</td>
</tr>
<tr>
<td>The online safety policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to online safety or incidents that have taken place. The next anticipated review date will be:</td>
<td>Summer/Autumn 2018</td>
</tr>
<tr>
<td>Should serious online safety incidents take place, the following external persons/agencies should be informed:</td>
<td>LA ICT manager, LA safeguarding officer, police</td>
</tr>
</tbody>
</table>

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited) LEA
- Surveys/questionnaires of
  - Learners
  - Parents and carers
  - Staff
Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individual and groups within the school:

Governors:
Governors are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. This will be carried out by the Governing Body receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body should take on the role of online safety governor\(^1\) to include:

- regular meetings with the online safety officer
- regular monitoring of online safety incident logs
- regular monitoring of filtering change control logs (where possible)
- reporting to relevant governors/sub-committee/meeting

Headteacher and senior leaders:
- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety may be delegated to the online safety officer
- The headteacher and the Deputy should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff\(^2\)
- The headteacher/senior leaders are responsible for ensuring that the online safety officer and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.
- The headteacher/senior leaders will receive regular monitoring reports from the online safety officer

Online safety officer:
The online safety officer

- leads the online safety group
- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides (or identifies sources of) training and advice for staff
- liaises with the local authority/relevant body
- liaises with (school) technical staff
- receives reports of online safety incidents\(^3\) and creates a log of incidents to inform future online safety developments.
- meets regularly with online safety governor to discuss current issues, review incident logs and if possible, filtering change control logs
- attends relevant meeting/sub-committee of governors

\(^2\) see flow chart on dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant Local Authority HR/other relevant body disciplinary procedures.
• reports regularly to headteacher/senior leadership team

**Network manager/technical staff:**

**NOTE:** Our school has a managed ICT service provided by the LEA. It is also important that the managed service provider is fully aware of the school online safety policy and procedures.

The LEA network manager/technical staff is responsible for ensuring:

• that the *school* technical infrastructure is secure and is not open to misuse or malicious attack
• that the school meets (as a minimum) the required online safety technical requirements as identified by the local authority and also the online safety policy/guidance that may apply.
• that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
• that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
• that the use of the *network/internet/learning platform/Hwb/remote access/email* is regularly monitored in order that any misuse/attempted misuse can be reported to the headteacher/senior leader; online safety officer (for investigation/action/sanction
• that (if present) monitoring software/systems are implemented and updated as agreed in school policies
• that the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person

**Teaching and Support Staff**

Are responsible for ensuring that:

• they have an up to date awareness of online safety matters and of the current school online safety policy and practices
• they have read, understood and signed the staff acceptable use agreement (AUA)
• they report any suspected misuse or problem to the headteacher/senior leader; online safety officer for investigation/action
• all digital communications with learners/parents and carers should be on a professional level and only carried out using official school systems
• Online safety issues are embedded in all aspects of the curriculum and other activities
• Learners understand and follow the online safety and acceptable use agreements
• learners have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
• they monitor the use of digital technologies, mobile devices, cameras etc., in lessons and other school activities (where allowed) and implement current policies with regard to these devices
• in lessons where internet use is pre-planned learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

**Designated senior person - Deputy head teacher**

The designated senior person should be trained in online safety issues and be aware of the potential for serious safeguarding issues to arise from:

• sharing of personal data
• access to illegal/inappropriate materials
• inappropriate online contact with adults/strangers

---

*See Personal Data Policy in the Appendix*
potential or actual incidents of grooming
• cyber-bullying
The designated senior person and the online safety officer will work in collaboration due to the safeguarding issues often related to online safety.

Online safety group
The online safety group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and monitoring the online safety policy including the impact of initiatives. The group will also be responsible for regular reporting to the Governing Body.

Members of the online safety group will assist the online safety officer with:

- the production/review/monitoring of the school online safety policy/documents.
- the review/monitoring of the LEA filtering policy (if applicable)
- mapping and reviewing the online safety curricular provision – ensuring relevance, breadth and progression
- monitoring network/internet/incident logs where possible
- consulting stakeholders – including parents/carers and the learners about the online safety provision
- monitoring improvement actions identified through use of the 360 degree safe Cymru self review tool

(Terms of reference to be agreed annually – following 360 suggested template)

Learners:
- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on cyber-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school’s online safety policy covers their actions out of school, if related to their membership of the school

Parents and carers
Parents and carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents’ evenings, newsletters, letters, website, Hwb, learning platform and information about national/local online safety campaigns/literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents’ sections of the website, Hwb, learning platform and online learner records
Community Users
Community users who access school systems/website/Hwb/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

Policy Statements

Education – learners
Whilst regulation and technical solutions are very important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school’s online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways: (Note: statements will need to be adapted, depending on school structure and the age of the learners)

- A planned online safety curriculum across a range of subjects, (e.g. ICT/PSE/DCF) and topic areas and should be regularly revisited
- Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial/pastoral activities
- Learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information.
- Learners should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Learners should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making. Nb. following additional duties for schools under the Counter Terrorism and Securities Act 2015 which requires schools to ensure that children are safe from terrorist and extremist material on the internet.
- Learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where learners are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the LEA technical staff can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – parents and carers
Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children’s online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.
The school will therefore seek to provide information and awareness to parents and carers through:

- **Curriculum activities**
- **Letters, newsletters, web site, learning platform, Hwb**
- **Parents and carers evenings/sessions**
- **High profile events/campaigns, e.g. Safer Internet Day**

**Education – the wider community**

The school will provide opportunities for local community groups/members of the community to gain from the school’s online safety knowledge and experience. This may be offered through the following:

- Providing family learning courses in use of new digital technologies, digital literacy and online safety
- Online safety messages targeted towards grandparents and other relatives as well as parents.
- The school learning platform, Hwb, website will provide online safety information for the wider community
- Supporting community groups, e.g. early years settings, childminders, youth/sports/voluntary groups to enhance their online safety provision (possibly supporting the group in the use of Online Compass, an online safety self review tool - [www.onlinecompass.org.uk](http://www.onlinecompass.org.uk))

**Education and training – staff/volunteers**

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- **A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly. It is expected that some staff will identify online safety as a training need within the performance management process.**
- **All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements.**
- **The online safety officer will receive regular updates through attendance at external training events, (e.g. from Consortium/SWGfL/LA/other relevant organisations) and by reviewing guidance documents released by relevant organisations.**
- **This online safety policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days.**
- **The online safety officer will provide advice/guidance/training to individuals as required.**

**Training – governors**

**Governors should take part in online safety training/awareness sessions**, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority/National Governors Association /or other relevant organisation, (e.g. SWGfL).
- Participation in school training/information sessions for staff or parents (this may include attendance at assemblies/lessons).

**Technical – infrastructure/equipment, filtering and monitoring**

The LEA manage our infrastructure
- **School technical systems will be managed in ways that ensure that the school meets recommended technical requirements**
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users will receive a Hwb username and Password created by the WAG.
- The “master/administrator” passwords for the school digital systems, used by the network manager (or other person) must also be available to the headteacher or other nominated senior leader and kept in a secure place, (e.g. school safe)
- The LEA is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations. The online safety Officer ensures any programmes purchased independently by the school have appropriate licenses.
- Internet access is filtered for all users through the LEA filtering systems.
- *The school has provided enhanced/differentiated user-level filtering* (allowing different filtering levels for different ages/stages and different groups of users: staff/learners, etc.).
- Internet filtering should ensure that children are safe from terrorist and extremist material when accessing the internet. N.b. additional duties for schools/colleges under the Counter Terrorism and Securities Act 2015 which requires schools/colleges to ensure that children are safe from terrorist and extremist material on the internet. (see appendix for information on “appropriate filtering”).
- An appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed. Hwb recording system.
- The school infrastructure and individual workstations are protected by up to date virus software.
- An LEA agreed policy is in place for the provision of temporary access of “guests”, (e.g. trainee teachers, supply teachers, visitors) onto the school systems.
- An agreed policy is in place regarding the extent of personal use that users (staff/learners/community users) and their family members are allowed on school devices that may be used out of school.
- An agreed LEA system is in place that doesn’t allow staff to download executable files and install programmes on school devices. (Unless authorised by school/LEA)
- An agreed policy is in place regarding the use of removable media (eg memory sticks/CDs/DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

**Mobile technologies**

Mobile school owned technology devices only have the capability of utilising the school’s/college’s wireless network. The device then has access to the wider internet which may include the school learning platform (Hwb) and other cloud based services such as email and data storage (Office 360).

All users should understand that the primary purpose of the use of mobile devices in a school context is educational. The mobile technologies policy is consistent with and inter-related to other relevant school polices including but not limited to those for safeguarding, behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies is an integral part of the school’s online safety education programme.

Our Acceptable Use Agreement includes the use mobile technologies e.g. breakages and insurance; access to devices for all learners; avoiding potential classroom distraction; network connection speeds, types of devices;
<table>
<thead>
<tr>

<tr>
<td>No network access</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

School owned/provided devices:

- Teachers and pupils have different allocated technology – with school network/Internet access
- Teachers are allowed to take teacher laptops home for school related work overnight/weekend
- Management of devices/installation of apps/changing of settings/monitoring – is the remit of the LEA ICT technical team, ICT Coordinator and Online Safety Officer
- Network/broadband capacity – provided by the LEA
- Technical support - provided by the LEA
- Filtering of devices – provided by the LEA
- Access to cloud services - provided by the WAG
- Data Protection – AU agreements
- Taking/storage/use of images – only use/saved on school devices/School hardware. Only displayed on school approved web sites.
- All school equipment/data remains the property of the school if the member of staff leaves
- Liability for damage – see documents
- Staff training – is an important part of the whole school provision

Personal devices:

- Staff personal devices are only to be used during break times
- Pupil personal devices are not be taken into/ used in school time. Occasionally with agreement with parents they may be stored on site
- Staff may be allowed to use personal devices for school business during exceptional circumstances (authorised by the Head/SLT) e.g. school closure/contacting parents
- No network/broadband capacity is permitted
- No Technical support is available
- Data Protection – to meet requirements of school policy
- Taking/storage/use of images – not permitted
- Liability for loss/damage or malfunction following access to the network – not applicable
- Identification/labelling of personal devices – staff/parent responsibility - school
- How visitors will be informed about school requirements
- Education about the safe and responsible use of mobile devices is included in the school online safety education programmes.
Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents and carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- **When using digital images, staff should inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet, eg., on social networking sites.**
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.
- **Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.**
- **Care should be taken when taking digital/video images that learners are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.**
- **Learners must not take, use, share, publish or distribute images of others without their permission**
- **Photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with good practice guidance on the use of such images.**
- **Learners’ full names will not be used anywhere on a website or blog, particularly in association with photographs.**
- **Written permission from parents or carers will be obtained before photographs of learners are published on the school website**
- **Learners’ work can only be published with the permission of the learner and parents or carers.**

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject’s rights
- Secure
- Only transferred to others with adequate protection.
The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the privacy notice and lawfully processed in accordance with the conditions for processing.
- It has a data protection policy
- It is registered as a data controller for the purposes of the Data Protection Act (DPA)
- Responsible persons are appointed/identified - senior information risk officer (SIRO) and information asset owners (IAOs)
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear data protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage/cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner’s Office.

**Staff must ensure that they:**

- **At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.**
  - Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
  - Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

**Communications**

This is an area of rapidly developing technologies and uses.
## Communication Technologies

<td></td>
</tr>
<tr>
<td>Use of blogs – ONLY THROUGH SCHOOL SYSTEMS</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

When using communication technologies the school considers the following as good practice:

- **The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.** *Staff and learners should therefore use only the school email service to communicate with others when in school, or on school systems, (e.g. by remote access).*

- **Users must immediately report to the nominated person – in accordance with the school policy - the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.**

- **Any digital communication between staff and learners or parents/carers (email, chat, learning platform, etc.) must be professional in tone and content.** *These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.*

- **Class teacher Hwb email addresses may be used at KS1, while learners at KS2 and above will be provided with individual school email addresses for educational use.**

- **Learners should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.**

- **Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.**
Social media
With an increase in use of all types of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of learners, the school and the individual when publishing any material online. Expectations for teachers’ professional conduct are set out by the General Teaching Council Wales (GTCW) but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place. All staff working at any educational establishment are expected to demonstrate a professional approach and respect for learners and their families and for colleagues and the learning setting.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to learners, parents and carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

When official school social media accounts are established there should be:

- A process for approval by senior leaders
- Clear processes for the administration and monitoring of these accounts – involving at least two members of staff
- A code of behaviour for users of the accounts, including
- Systems for reporting and dealing with abuse and misuse
- Understanding of how incidents may be dealt with under school disciplinary procedures

Personal Use:

- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school permits reasonable and appropriate access to private social media sites

Monitoring of Public Social Media

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
• The school should effectively respond to social media comments made by others according to a defined policy or process

School use of social media for professional purposes will be checked regularly by the senior risk officer and online safety group to ensure compliance with the social media, data protection, communications, digital image and video policies.

Unsuitable/inappropriate activities
Some internet activity, e.g. accessing child abuse images or distributing racist material is illegal and is obviously be banned from school and all other technical systems. Other activities, e.g. online bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in, or out of, school when using school equipment or systems. The school policy restricts usage as follows:
<table>
<thead>
<tr>
<th>User Actions</th>
<th>Acceptable</th>
<th>Acceptable at certain times</th>
<th>Acceptable for nominated users</th>
<th>Unacceptable and illegal</th>
</tr>
</thead>
<tbody>

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents
If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.
Online Safety Incident

- Unsuitable Materials
  - Report to the person responsible for Online Safety

- Illegal materials or activities found or suspected
  - Illegal Activity or Content (No immediate risk)
  - Illegal Activity or Content (Child at immediate risk)
  - Staff/Volunteer or other adult
    - Report to Police using any number and report under local safeguarding arrangements. DO NOT DELAY, if you have concerns, report them immediately
  - Secure and preserve evidence. Remember, do not investigate yourself. Do not view or take possession of any images/videos. Do not ask leading questions

- If staff/volunteer or child/young person, review the incident and decide upon the appropriate course of action, applying sanctions where necessary
  - Debrief on online safety incident
  - Review policies and share experience and practice as required
  - Provide collated incident report logs to CPC and/or relevant authority as appropriate
  - Implement changes
  - Monitor situation

- Call Professional Strategy Meeting

Named Person is responsible for the child's wellbeing and as such should be informed of anything that places the child at risk BUT safeguarding procedures must be followed where appropriate

Await Police response

If no illegal activity or material is confirmed then revert to internal procedures

If illegal activity or materials are confirmed, allow police or relevant authority to complete their investigation and seek advice from the relevant professional body

In the case of a member of staff or volunteer, it is likely that a suspension will take place at the point of referral to police while police and internal procedures are being undertaken
Other Incidents
It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless, irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by learners and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
  - Internal response or discipline procedures
  - Involvement by local authority or national/local organisation (as relevant).
  - Police involvement and/or action
- If content being reviewed includes images of child abuse then the monitoring should be halted and referred to the police immediately. Other instances to report to the police would include:
  - incidents of ‘grooming’ behaviour
  - the sending of obscene materials to a child
  - adult material which potentially breaches the Obscene Publications Act
  - criminally racist material
  - promotion of terrorism or extremism
  - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School actions
It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:
## Learner Actions

Learner acceptable use – for Foundation Pupils (Up to Year 2)

This is how we stay safe when we use computers:

I will ask a teacher or another adult from the school if I want to use the computers.

I will only use activities that a teacher or another adult from the school has told or allowed me to use.

I will take care of the computer and other equipment.

I will ask for help from a teacher or another adult from the school if I am not sure what to do or if I think I have done something wrong.

I will tell a teacher or another adult from the school if I see something that upsets me on the screen.

I know that if I break the rules I might not be allowed to use a computer/tablet.

**Signed (child):** .......................................................... (FROM Year 1 ON)

**Signed (parent):** ..........................
Learner acceptable use agreement (AUA) for Key Stage 2

Digital technologies have become integral to the lives of children and young people, both within and outside schools/colleges. These technologies are powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safer internet access at all times.

This Acceptable use agreement is intended to ensure:

- that learners will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that learners will have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users.

Acceptable use agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the school will monitor my use of systems, devices and digital communications
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person’s username and password. I understand that I should not write down or store a password where it is possible that someone may steal it
- I will be aware of “stranger danger”, when I am communicating online
- I will not disclose or share personal information about myself or others when online (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details, etc.)
- If I arrange to meet people off-line that I have communicated with online, I will do so in a public place and take an adult with me
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it online.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the school systems and devices are primarily intended for educational use and that I will only use them for personal or recreational use if I have permission
- I will only make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work, if I have permission
- I will only use the school systems or devices for online gaming, file sharing, or video broadcasting (eg YouTube), if I have permission of a member of staff to do so.

I will act as I expect others to act toward me:

- I will respect others’ work and property and will only access, copy, remove or alter any other user’s files, with the owner’s knowledge and permission
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions
- I will only take or distribute images of others with their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:

- I will only use my own personal device(s) in school in exceptional circumstances – agreed with the Headteacher. I understand that, if I do use my own device in the school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any
programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials

- I will immediately report any damage or faults involving equipment or software, however this may have happened
- I will only open hyperlinks in emails or attachments to emails, if I know and trust the person/organisation who sent the email, and have no concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will only install/store programmes on a school device, if I have permission
- I will only use social media sites with permission and at the times that are allowed

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information)
- I understand that if I fail to comply with this acceptable use agreement, I will be subject to disciplinary action. This may include loss of access to the school network/internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections below to show that you have read, understood and agree to the rules above. If you do not sign and return this agreement, access will not be granted to school systems and devices.

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own equipment out of the school in a way that is related to me being a member of this school, e.g. communicating with other members of the school, accessing school email, learning platform, website, etc.

Staff (and volunteer) acceptable use agreement

School policy
New technologies have become integral to the lives of children and young people in today's society, both within schools/colleges and in their lives outside school. The internet and other digital communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safer internet access at all times.

This acceptable use agreement is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of digital technologies in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technologies to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable use agreement
I understand that I must use school digital technologies in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technologies. I will, where possible, educate the young people in my care in the safe use of ICT and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person’s username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school ICT systems:

- I will only access, copy, remove or alter any other user's files, with their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's/college's policy on the use of digital/video images. I will only use my personal equipment to record these images, if I have permission to do so. Where these images are published, (e.g. on the school website/learning platform) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use chat and social networking sites in school in accordance with the school's policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner. (schools/colleges should amend this section to take account of their policy on communications with learners and parents/carers. Staff should be made aware of the risks attached to using their personal email addresses/mobile phones/social networking sites for such communications)
- I will not engage in any online activity that may compromise my professional responsibilities.
The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices laptops/mobile phones/USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school digital technology systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, extremist material or adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will only make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work, with permission
- I will only install or attempt to install/store programmes on devices or if this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school/LA Personal data policy. Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based protected and restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name: ..........................................................

Signed: ........................................................................

Date: ........................................................................
Parent/Carer Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people, both within schools/colleges and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.

- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their online behaviour.

- That parents will act as role models to pupils e.g. will not upload, share or add any pictures, video or text that could upset, offend or threaten the safety of any pupil or adult of the school community.

- To remind parents to use the existing structures when making any complaint about the school or a member of staff – rather than discuss matters on social networking sites.

The school will try to ensure that learners will have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the Learner Acceptable has been sent home previously so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form overleaf to show their support of the school in this important aspect of the school’s/college’s work.
Permission Form

Parent/Carers Name:_________________________ Learner’s Name _____________

As the parent/carer of the above learner(s), I give permission for my son/daughter to have access to the internet and to digital technology systems at school.

Either: (KS2)

I know that my son/daughter has signed an acceptable use agreement and has received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

Or: (Foundation)

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including applying monitoring and filtering systems, to ensure that young people will be safe when they use the internet and digital technology systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies. I understand that my son’s/daughter’s activity on the digital technology systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement. I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child’s online safety. I will act as a role model to my child support the schools approach to e-safety and will not upload, share or add any pictures, video or text that could upset, offend or threaten the safety of any pupil or adult of the school community.

Signed: ________________________________ Date: ________________

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons. Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media.

The school will comply with the Data Protection Act and request parents/carers permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner’s Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal
use (as such use in not covered by the Data Protection Act). To respect everyones’ privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

**Digital/Video Images Permission Form**

Parent/Carers Name: __________________________

Learners Names: __________________________

As the parent/carer of the above learner(s), I agree to the school taking and using digital/video images of my child/children. I understand that the images will only be used to support learning activities or in publicity that reasonably celebrates success and promotes the work of the school.

I agree that if I take digital or video images at, or of, – school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.

Signed: __________________________ Date: __________________________

Learner(s) Names: __________________________
