Northfield Primary School with Communication Resource

Food Policy

Date of Publication: March 2020
Review Period: 2 Yearly
Introduction

At Northfield Primary School with Communication Resource we are committed to ensuring that the children in our care grow into healthy adults.

Our school does its utmost to teach children the key points about living a healthy life, including the importance of eating healthy food in which children can thrive. We believe that it is only through a whole-school approach that the key messages about food and drink can be really effectively conveyed. This document sets out our policy on this.

Aims and Objectives

- To help children know and understand the importance of food and drink in a healthy lifestyle.
- To help children learn what healthy food is.
- To give children the skills they need to make the right choices with regard to food and drink.
- To promote the physical and emotional well-being of all our children.

The Curriculum

We will plan explicit teaching about healthy eating in our formal curriculum. For example, we will teach children about the preparation and cooking of healthy food in design technology classes, while in geography lessons, children will learn where food comes from and how it reaches the shops. In science, we will teach about nutrition and the needs of a healthy body. Through mathematics, we will teach children to measure and calculate size and weight. In English, we will provide opportunities for children to discuss, read and write about health-related issues, and why some parts of the world have a surplus of food, while other parts have famine. In religious education, children will learn about how food is valued in different societies, and the part food plays in religious custom and practice. In physical education, children will have the opportunity to learn how their body reacts to exercise, and the importance of food and drink to participation in sport and dance. In PSHE, children will have the opportunity to reflect on food-related issues such as how food is advertised, and how we can enjoy treats without damaging our bodies.

We will also promote healthy eating through the informal curriculum. For example, we will promote healthy eating regularly in assemblies. We will encourage children to participate in school games clubs and sports, and so learn the enjoyment of a healthy lifestyle. We will organise school visits to outdoor pursuit centres, and provide opportunities for children to explore the natural world. Our school site will be fully exploited in the interest of the children's physical and emotional development through playground activities and the provision of imaginative equipment.

The School Environment

We will ensure that our school environment promotes healthy eating. We will encourage children to pack a healthy lunchbox and provide a healthy tuck shop. Fresh fruit is available to pupils in KS1 / Foundation Stage.

We will encourage children to drink plenty of water by encouraging them to bring a water bottle for use at any time, by giving access to cooled water, and regular opportunities to drink water throughout the day.

Children will not be allowed to eat crisps or sweets at break times.
School Lunches

We will serve only healthy food and drink for our school lunches. The lunches will be prepared by our school kitchen staff. A basic requirement will be that they provide a vegetarian option each day, that they always serve vegetables and fruit, and that all lunches have a balanced nutritional value. All meals conform to the standards identified through the School Food trust. Provision of school meals is the responsibility of ISS who are LA providers.

The parents or carers of children who bring packed lunches will be made aware of our healthy-school policy, and given clear guidance about what should be included in a healthy packed lunch. – refer to Packed Lunch Policy.

Role of Parents and Carers

We will work closely with parents and carers to ensure that the messages about food and drink we give in school are reinforced and supported at home.

We expect all parents and carers who send their children to our school to respect our healthy food policy and to support it fully through the food they give their children to bring to school.

Monitoring and Review

The governing body will monitor this policy to ensure that our children are taught the importance of healthy eating. It will be reviewed on a regular basis, and at least once every two years.
