Practice questions

In this booklet, there are different types of question for you to answer in different ways.

Here are some practice questions which show you the types of question you will see in the test. The instructions tell you what you need to do.

Start by reading the text in the box below.

Bethan pushed open the door of the pet shop and went inside with her mum and grandad. They saw a lovely yellow bird singing in its cage. Then, in the middle of the shop, they walked past a tank of spotted fish diving through long, swaying plants. Grandad stopped to watch a furry hamster running in a wheel but there was only one animal Bethan wanted to see. She went straight over to the black rabbit that was crunching on a carrot. She had come to take him home at last.

(a) Where did Bethan go?

Tick one.

- to the zoo
- to the park
- to the pet shop
- to the farm

(b) Who did Bethan go with?

Tick two. Hint: Check how many you have to tick.

- her mum
- her dad
- her sister
- her brother
- her grandad
c) **Find and copy one word** that shows how the fish were moving.

______________

**Hint:** You must look back in the text to find this.

d) Put ticks to show which statements are **true** and which are **false**.

Really brave Tim

Billy, Millie, Suki and Tim sat inside the den. They were boasting. “I’m not scared of the dark,” said Billy.

Tim kept very quiet. He was scared of the dark, but he didn’t want to tell.

And so Billy began: “There was a noise from the night, so I crept outside through the deep dark forest to the tangled-up trees where goblins were playing football. But I wasn’t scared. I yelled, ‘That’s my ball. Give it back NOW.’ And they did. So I went back to sleep.”

“Wow! You were brave!” said Millie, Suki and Tim.

1 Where did the children tell their stories?

Tick one.

- by a sweetshop
- in a den
- in a forest
- on the beach
2 Find and copy one word that tells you Billy moved quietly through the forest.

3 ...tangled-up trees...

This shows you that the trees...

Tick one.

- had no leaves on their branches.
- reached high up into the sky.
- were twisted around each other.
- had all been cut down.

4 What did the goblins do?

Tick one.

- gave Billy his football
- shouted at Billy
- went back to sleep
- let Billy play football

please turn over
Then it was Millie’s turn.  
“Well, I’m not scared of the sea,” she said.

Tim kept very quiet. Tim was scared of the sea, but he didn’t want to tell.

And so Millie began:  
“I was swimming deep down when I dived through the dark. I saw a great shark with terrifying teeth. I climbed on his back and went for a ride right down to the bottom of the ocean. On the floor of the ocean I found my lost shoes that had been washed out to sea. Then the shark carried me back to the beach.”

“Wow! You were really brave!” said Billy, Suki and Tim.

5 How had Millie lost her shoes? 

Tick one.  
The shark had taken them from the beach.  
She had been swimming in them.  
They had been washed out to sea.  
She had been walking on the ocean floor.

6 Number these events from 1 to 5 to put Millie’s story in order.  
One has been done for you.

Millie swam in the dark sea.  
Millie rode to the bottom of the ocean.  
Millie found her lost shoes.  
Millie saw a shark.  
The shark carried Millie to the beach.
Then it was Suki's turn.  
"Well, I'm not scared of heights," she said.

Tim kept very quiet. Tim was scared of heights, but he didn't want to tell.

And so Suki began:  
"I had been to the sweetshop, when a crafty dragon swooped down and pinched my strong mints. I followed him higher and higher to the top of the world where the dragon was finding my strong mints far too hot. He gave them straight back."

"Wow! You were really, really brave!" said Billy, Millie and Tim.

7  **Find and copy one** word that describes how the dragon moved.

__________________________________________________________________________

8  **Where did the dragon go to eat the mints?**  
**Find and copy** the place.

__________________________________________________________________________

9  **Why did the dragon give Suki back her sweets?**

**Tick one.**

- They made him dizzy.  
- He did not like the taste of them.  
- He was afraid of her.  
- He felt guilty about stealing them.

*please turn over*
Then everyone looked at Tim. They were waiting for his story. But he was scared of the dark. He couldn’t swim. He felt dizzy with heights. He wasn’t even sure he could eat a strong mint!

He was very, very quiet. Then he suddenly noticed something, and cupped his hands over Billy’s head.

And so Tim began:
“In my hand there is something that wriggles. It’s squirming and hairy. It’s awfully scary. But it doesn’t frighten me, not one little bit. Look everyone! It’s a…”

“It’s a spider!” yelled Billy, Millie and Suki. “AARGH, LET US OUT!”

Billy, Millie and Suki peeped into the den.
“Wow, you’re really, really, really brave!” they said to Tim.
And really brave Tim smiled.

He knew it was true.

...cupped his hands over Billy’s head.

What was Tim doing?

Tick one.

- clapping because the stories were good
- dropping a spider on Billy’s head
- clapping to make Billy jump
- catching a spider in his hands

When plants bite

They look pretty. They might smell nice. But some plants are a bit different from the buttercups and daisies you might see in the park. These unusual plants need more than just air, water and sunlight to survive. They catch and eat insects and other small creatures. This keeps them healthy and strong. But how do they do it?

1. Find and copy the names of two plants that you might see in the park.
   1. ____________________
   2. ____________________

2. Why do some unusual plants eat insects and other creatures?
   Tick one.
   - to look pretty and smell nice
   - to grow by the roadside
   - to stay healthy and strong
   - to avoid being eaten by other animals
Unusual plants
These unusual plants cannot chase after their food. They have to use very clever tricks to 'grab' their next meal – like using special leaves that act as traps. Their leaves are often brightly coloured so they look just like flowers, which insects love. When an insect lands on the leaves, it becomes trapped.

The Venus flytrap is one of the plants that catch and eat insects and spiders. Really big Venus flytraps have even been known to catch frogs. But don’t worry, they never grow large enough to eat anything as big as a human!

3 Some plants ‘grab’ their food.

What is special about the leaves on these unusual plants?

Tick one.
They are very large. ☐  They can chase insects. ☐
They act like a trap. ☐  They smell nice. ☐

4 What do insects like about these unusual plants?

Tick one.
being trapped by them ☐  their clever tricks ☐
their brightly coloured flowers ☐  their brightly coloured leaves ☐

5 Find and copy three things that a Venus flytrap eats.

1. _____________________

2. _____________________

3. _____________________
A Venus flytrap catches insects, such as this fly, using a trap which looks a bit like an open mouth. The trap is open most of the time but snaps together to lock in its lunch.

There are tiny hairs on each side of the trap. If an insect gets too close and touches these hairs, the plant quickly closes. The insect is then trapped between the two sides.

Each side of the trap has spikes along the edge that lock together, like a zip, to keep the insect inside.

6 Why has a diagram been included?

Tick one.

- to help you understand the information
- to show you how scary a Venus flytrap is
- to show you how to grow a Venus flytrap
- to tell you where Venus flytraps live in the wild

7 What does the open trap of a Venus flytrap look like?

Tick one.

- a fly
- a mouth
- a zip
- an insect
Look at the information about how a Venus flytrap catches a fly.

Number these events from 1 to 5 to show the order in which they happen.

One has been done for you.

The tiny hairs feel the fly. [ ]
The fly sees the colourful leaves. [1]
The trap closes around the fly. [ ]
The fly lands on the leaves. [ ]
The edges lock together. [ ]

The trap snaps together.

What does this tell you?

Tick two.

The trap closes quickly. [ ]
The trap has sharp teeth. [ ]
The fly cannot escape. [ ]
The trap breaks apart. [ ]
The fly zips up the trap. [ ]

The Venus flytrap is not the only plant that eats insects. Other plants, like the pitcher plant and the sundew plant, have their own interesting ways of catching their food.

Pitcher plants have a narrow trap with long, waxy sides. There is a sweet-smelling liquid at the bottom. The insect enters the trap to drink the sweet-smelling liquid and then can’t climb back out.

The sundew plant catches insects with its sticky, colourful leaves. Insects flying past are attracted to the bright colours of the leaf. They get stuck to the plant when they land on it. Poor insects!

10 Label each arrow to show the different parts of the pitcher plant.

A – sweet-smelling liquid
B – long, waxy sides
C – entry to the trap
11) Find and copy two words used to describe the leaves of the sundew plant.

1. ______________________

2. ______________________

12) Look at the information about the sundew plant.

Why are the insects described as poor insects?

Tick one.

because they have been tricked  ☐
because they are greedy  ☐
because they are lonely  ☐
because they have no food  ☐
