Spring 1 Homework Project

The British Isles

Capital Cities

What can you find out about the capital cities of Great Britain? (Cardiff, London & Edinburgh.)

Can you find these cities on a map?

How many people live there?

What different types of transport are used in each city?

What different sports stadiums can be found in each city?

What famous events have occurred in each city?

What famous buildings can be found there?

What stories, songs, poems or pictures can you find out about the capital cities?

Does each city have its own flag?

Your research can be about one capital city or you could compare all three – it is up to you!

Think about these questions then choose at least one project task from the following:

1. Produce a capital city information poster.
2. Plan a day out in a capital city.
3. Make and label a map of a capital city – showing places of interest.

Curious Question: Can you explain the difference between the United Kingdom and Great Britain?

Please complete and return your homework on:

Monday 12th February – for sharing and display.
