**Geography**
We will be developing our enquiry skills by investigating key questions, such as why are rivers important and why are cities located near rivers. In addition, we will be learning about the major rivers of the world.

**French**
French Lessons will continue as usual and be taught by Mrs Suarez for both classes.

**Art**
We will be developing our skills in digital art and sculpture. The children will be working with an artist to create an animation.

**Science**
The children will be investigating electricity. We will be constructing simple series circuits to answer questions about what happens when they try different components, for example, switches, bulbs, buzzers and motors.

**Why are rivers important?**

**What are we doing this term?**

**Spring Term 2020**

**P.E days 1st half term**
6C Thursday and Friday
6F Thursday and Friday
The children will be developing their skills in football and basketball.

**Maths**
The children will be extending their knowledge of multiplication and division; additionally, we will continue to focus on developing a deeper understanding of how to solve number problems, classification of shape and data handling.

**English**
This half-term we will be reading the excellent ‘Room 13’ by Robert Swindells in order to stimulate a range of exciting writing opportunities for the children.

**Special Information**
We will be visiting Macclesfield Forest to investigate and study the features of a river on Friday 13th March.
Letter to follow with more information.
