English
We will be looking at a narrative based upon a famous picture book, Seen and Not Heard, about a spooky old house. On the walls are paintings of people, who come alive at night, getting up to all sorts of mayhem. The book will give us a great opportunity to describe characteristics, and to use inference skills to anticipate how these characters interact and behave in the way they do.

Geography
We will look in depth at how Fair Trade works across the world, using an ethical philosophy to provide food. The children will learn about how international trade is linked, and how it can have a negative impact on our environment.

Science
This term we will be looking at forces. We will investigate how a range of forces come into play as we investigate a meteorite strike against planet Earth. After half term we will be looking at the Sun, Earth and Moon.

Maths
The children will be extending their knowledge of multiplication and division within a range of contexts. Using models and images we will build up a secure knowledge of a range of strategies to problem solve.

Art
We will be exploring various motifs in art, using printing designs on material, and how to use repeat patterns for effect.

PE
We will be developing skills in a range of invasion games. Additionally, Year 5 will continue to have swimming lessons.

Spring Events
Tuesday 3rd March - Swimming Gala (selected children)
9th and 11th March - Jodrell Bank Trip
Wednesday 18th March (8.50-9.15) - Learn With Me on Maths
Homework
Handed out Friday
Collected Wednesday
Spelling test on Wednesday

Our new topic is Fair Trade.
Mrs Smith & Mr Loxham.
