In RE this week we have been looking at Judaism for our ‘Other Faiths’ strand of the RE curriculum.

We began by looking at the story of Abraham and how God chose him to lead the Jewish people. God told Abraham that he would have as many people in his family as there are stars in the sky. With this story in mind we decorated stars with all of the members of our own family on it.

We then looked at the story of Moses leading the Jewish people to freedom from Egypt. After we had listened to this story we acted it out.

There are still a couple of spaces available for our Mini - Professors Science club which starts after half term.

This is a great opportunity to help your child start to build their love of science through a fun interactive session. Parents are welcome to come along and join in too if they want to, but it is not compulsory for parents to attend.

This week in Literacy we have used our story maps to write our own stories. I have been really impressed with the stories that the children have written.

In maths our work has focussed on the days of the week and the months of the year.

The children have worked really hard this half term and I am pleased with how they are settling into Year 1.

Have a lovely rest over the half term, and I will see you back at school on Tuesday 22nd October.

Star of the Week

Hannah

for trying really hard with her phonics this half term

Well done!

After half term we will be taking a trip down the rabbit hole to Wonderland.
