Act section 19. The term ‘dataset’ is defined in section 11(5) of the Freedom of Information Act. The term ‘relevant copyright work’ is defined in section 19(8) of that Act

Definitions

Dataset - (5) In this Act “dataset” means information comprising a collection of information held in electronic form where all or most of the information in the collection.

Relevant copyright work - The duty to make relevant copyright works available for re-use under the terms of a specified licence means that public authorities must be able to establish whether their datasets meet the definition of a relevant copyright work. In particular, they need to know whether they own the intellectual property in the datasets they hold, since they cannot license re-use if they are not the only owner.
