Charging & Remissions

Charges for School Activities

No charge will be made for activities or equipment needed to carry out those activities, if they take place during the school day as part of the normal curriculum of the school. The Governing Body recognises the valuable contribution that the wide range of additional activities can make towards a pupil’s personal and social education. Such activities will be promoted and provided as part of a broad and balanced curriculum for the pupils of the school. The Governing body will invite parents to make voluntary contributions towards the cost of providing activities for the pupils. However, the absence of a voluntary contribution cannot debar a pupil from taking part in that activity.
