Year 1’s Home Learning Newsletter  
Monday 15th June 2020 – Friday 19th June 2020

Hello Children,

We hope that you are all doing well. Whether you are at home or at school, we have seen you completing some fantastic work and we are so proud of each and every one of you. As we slowly move back to school, you have all coped extremely well with the transition and shown everyone just how fantastic you all are. Also a massive well done to those of you that are not at school and have continued to work incredibly hard on your Purple mash work. Please know that if you need any help or even just want to chat you can email us on 2Email or post on our class blogs. We will be looking out for the answers to the newsletter challenges on our class blogs, so make sure you use the directions on your page to help you post them. Keep being amazing, and know that we miss you all an incredible amount.

All our love,
Miss Moore, Miss Farrall, Mrs Kearney and Mrs Lewis

---

**Riddle/ Challenge**

*I live in the ground and have a jacket on.*

*I can be boiled, baked, mashed and fried.*

*What am I?*

If you have internet access, post your answers onto the Year 1 class blog on Purple Mash and maybe share your own riddles with everyone.

---

**Phonics/ Reading**

We follow the Phonics Scheme Read Write Inc. Read Write Inc. have a YouTube channel which is showing daily phonics sessions for you to access. Simply search ‘Read Write Inc.’ on YouTube and a selection of videos will appear. Write all of the words you can see.

---

**Project 1:** PSHE: Oxfam Water week

Water is recognised as a basic human right.

But this basic human right is denied to many people.

900 million people still don’t have access to safe, clean water. That’s 15 times the number of people in the UK! Oxfam works with water-vulnerable communities to try to overcome water problems. Oxfam Water Week is a chance for us to learn more about why water problems exist, think about what can be done to tackle these problems and then to act by doing something in response to what we have learned. Follow the link below to learn more about the problem and download the watering can from the campaign section and send it to your local MP to raise the issue.

---

**Project 2:** Science: Diabetes week

Diabetes is a condition that causes a person’s blood sugar level to become too high. There are two types of diabetes, Type 1 and Type 2. People with type 1 is not to do with a person’s diet but Type 2 diabetes is usually related to diet. It is more common than Type 1 diabetes and is found more often in adults. People with diabetes are encouraged to eat a healthy diet and it is important to count the amount of carbohydrates in the food they eat. Design a healthy meal for someone with diabetes to eat.

For more information, watch this PowerPoint.
