Investigating 2D shape!

We hope you have fun enjoying these activities with your child. The main focus is your child understanding and using the correct words/vocabulary.

In school we teach and use the following words/vocabulary

<table>
<thead>
<tr>
<th>square</th>
<th>shape</th>
<th>circle</th>
</tr>
</thead>
<tbody>
<tr>
<td>triangle</td>
<td>curved</td>
<td>corner</td>
</tr>
<tr>
<td>rectangle</td>
<td>straight</td>
<td>side</td>
</tr>
</tbody>
</table>

Can you remember the names of these 2D shapes?

How many sides does each shape have?
How many corners does each shape have?
Which shape or shapes have curved sides?
Which shape or shapes have straight sides?

Can you remember the difference between a square and a rectangle?

How many corners does a triangle have?
How many sides does a circle have?

Which shapes can you find in this picture?

Can you draw your own picture using these shapes?
