Mission Statement

St. Patrick’s Catholic Primary School offers distinctive education within a caring Christian community where everyone can feel valued, confident and secure.

We believe that each person is gifted, unique and loved by God.

By working in partnership we create a challenging, stimulating and effective learning environment where Christ is our inspiration.

School E-Safety Policy

The school will appoint an e-Safety coordinator. In many cases this will be the Designated Child Protection Officer as the roles overlap.

Our e-Safety Policy has been written by the school following Government and Local Authority guidance.

The e-Safety Policy will be reviewed three yearly. This policy will next be reviewed in September 2022.

This policy should be read in conjunction with the Anti-bullying and Behaviour and Physical Intervention policy

Why is Internet Use Important?

The purpose of Internet use in school is to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school’s management information and administration systems.

Internet use is part of the statutory curriculum and a necessary tool for learning. It is an essential element in 21st century life for education, business and social interaction. Access to the Internet is therefore an entitlement for pupils who show a responsible and mature approach to its use. Our school has a duty to provide pupils with quality Internet access.

Pupils will use the Internet outside school and will need to learn how to evaluate Internet information and to take care of their own safety and security.

How does Internet Use benefit education?

Benefits of using the Internet in education include:
- access to world-wide educational resources including museums and art galleries;
- inclusion in the National Education Network which connects all UK schools;
- educational and cultural exchanges between pupils world-wide;
- access to experts in many fields for pupils and staff;
- professional development for staff through access to national developments, educational materials and effective curriculum practice;
- collaboration across support services and professional associations;
- improved access to technical support including remote management of networks and automatic system updates;
- exchange of curriculum and administration data with the Local Authority and DCSF; access to learning wherever and whenever convenient.
How Can Internet Use Enhance Learning?

- The school Internet access will be designed expressly for pupil use and includes filtering appropriate to the age of pupils.
- Pupils will be taught what Internet use is acceptable and what is not and given clear objectives for Internet use.
- Internet access will be planned to enrich and extend learning activities.
- Staff should guide pupils in on-line activities that will support learning outcomes planned for the pupils’ age and maturity.
- Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation.

Authorised Internet Access

- The school will maintain a current record of all staff and pupils who are granted Internet access.
- All staff must read and sign the ‘Acceptable ICT Use Agreement’ before using any school ICT resource.
- Parents will be informed that pupils will be provided with supervised Internet access.
- Parents will be asked to sign and return a consent statement in the pupil information form which refers to the home school agreement; detailing pupil access in the E-safety policy.

World Wide Web

- If staff or pupils discover unsuitable sites, the URL (address), time, content must be reported to the Local Authority helpdesk via the e-safety coordinator or network manager.
- School will ensure that the use of Internet derived materials by pupils and staff complies with copyright law.
- Pupils should be taught to be critically aware of the materials they are shown and how to validate information before accepting its accuracy.

Email

- Pupils may only use approved e-mail accounts on the school system.
- Pupils must immediately tell a teacher if they receive offensive e-mail.
- Pupils must not reveal personal details of themselves or others in e-mail communication, or arrange to meet anyone without specific permission.
- Whole class or group e-mail addresses should be used in school
- Access in school to external personal e-mail accounts may be blocked.
- E-mail sent to external organisations should be written carefully and authorised before sending, in the same way as a letter written on school headed paper.
- The forwarding of chain letters is not permitted.
Social Networking

- Schools should block/filter access to social networking sites and newsgroups unless a specific use is approved.
- Pupils will be advised never to give out personal details of any kind which may identify them or their location
- Pupils should be advised not to place personal photos on any social network space.
- Pupils should be advised on security and encouraged to set passwords, deny access to unknown individuals and instructed how to block unwanted communications. Pupils should be encouraged to invite known friends only and deny access to others.

Filtering

The school will work in partnership with the Local Authority and the Internet Service Provider to ensure filtering systems are as effective as possible.

Video Conferencing

- IP videoconferencing should use the educational broadband network to ensure quality of service and security rather than the Internet.
- Pupils should ask permission from the supervising teacher before making or answering a videoconference call.
- Videoconferencing will be appropriately supervised for the pupils’ age.

Managing Emerging Technologies

- Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.
- Mobile phones will not be used for personal use during lessons or formal school time. The sending of abusive or inappropriate text messages is forbidden.
- Staff will be issued with a school mobile phone where contact with pupils is required.

Published Content and the School Web Site

- The contact details on the Web site should be the school address, e-mail and telephone number. Staff or pupils personal information will not be published.
- The headteacher or nominee will take overall editorial responsibility and ensure that content is accurate and appropriate.

Publishing Pupils’ Images and Work

- Photographs that include pupils will be selected carefully and will not enable individual pupils to be clearly identified.
- Pupils’ full names will not be used anywhere on the Web site or Blog, particularly in association with photographs.
• Work can only be published with the permission of the pupil and parents.

**Information System Security**

• School ICT systems capacity and security will be reviewed regularly.
• Virus protection will be installed and updated regularly.
• Security strategies will be discussed with the Local Authority.

**Protecting Personal Data**

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998.

**Assessing Risks**

• The school will take all reasonable precautions to prevent access to inappropriate material. However, due to the international scale and linked Internet content, it is not possible to guarantee that unsuitable material will never appear on a school computer. Neither the school nor Nottinghamshire County Council can accept liability for the material accessed, or any consequences of Internet access.
• The school should audit ICT use to establish if the e-safety policy is adequate and that the implementation of the e-safety policy is appropriate.

**Handling E-safety Complaints**

• Complaints of Internet misuse will be dealt with by a senior member of staff.
• Any complaint about staff misuse must be referred to the headteacher.
• Complaints of a child protection nature must be dealt with in accordance with school child protection procedures.
• Pupils and parents will be informed of the complaints procedure.
• Discussions will be held with the Police Youth Crime Reduction Officer to establish procedures for handling potentially illegal issues.

**Communication of Policy**

**Pupils**

• Rules for Internet access will be posted in all networked rooms.
• Pupils will be informed that Internet use will be monitored.

**Staff**

• All staff will be given the School e-Safety Policy and its importance explained.
• Staff should be aware that Internet traffic can be monitored and traced to the individual user. Discretion and professional conduct is essential.
Parents

- Parents’ attention will be drawn to the School e-Safety Policy in newsletters, the school brochure and on the school Web site.

Key Stage 1 E-Safety pupils acceptable use agreement

Think then Click

These rules help us to stay safe on the Internet

- We only use the internet when an adult is with us
- We can click on the buttons or links when we know what they do.
- We can search the Internet with an adult.
- We always ask if we get lost on the Internet.
- We can send and open emails together.
- We can write polite and friendly emails to people that we know.

</table>
E-Safety Rules

These e-Safety Rules help to protect pupils and the school by describing acceptable and unacceptable computer use.

- The school owns the computer network and can set rules for its use.
- It is a criminal offence to use a computer or network for a purpose not permitted by the school.
- Irresponsible use may result in the loss of network or Internet access.
- Network access must be made via the user’s authorised account and password, which must not be given to any other person.
- All network and Internet use must be appropriate to education.
- Copyright and intellectual property rights must be respected.
- Messages shall be written carefully and politely, particularly as email could be forwarded to unintended readers.
- Anonymous messages and chain letters are not permitted.
- Users must take care not to reveal personal information through email, personal publishing, blogs or messaging.
- The school ICT systems may not be used for private purposes, unless the head teacher has given specific permission.
- Use for personal financial gain, gambling, political activity, advertising or illegal purposes is not permitted.

The school may exercise its right to monitor the use of the school’s computer systems, including access to web-sites, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school’s computer system may be taking place, or the system may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.
E-safety

Parent/Carer Acceptable Use Agreement

All pupils use computer facilities including Internet access as an essential part of learning, as required by the National Curriculum. Parents/carers are asked to read these rules and sign the pupil information form which states that they understand and accept the contents of the home-school agreement, including E-Safety Rules.

Parent’s Consent for Web Publication of Work and Photographs

I agree that my son/daughter’s work may be electronically published. I also agree that appropriate images and video that include my son/daughter may be published subject to the school rule that photographs will not be accompanied by pupil names. I will not post pictures taken of other children in school on social networking sites.

Parent’s Consent for Internet Access

I have read and understood the school e-safety rules and give permission for my son / daughter to access the Internet. I understand that the school will take all reasonable precautions to ensure that pupils cannot access inappropriate materials but I appreciate that this is a difficult task.

I understand that occasionally inappropriate materials may be accessed and accept that the school will endeavour to deal with any incident that may arise according to the policy.

I understand that the school cannot be held responsible for the content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

I understand that my son’s/daughters activity will be monitored and that the school will contact me if they have concerns about any possible breaches of the e-safety rules.

I understand that everything posted on a social networking site should be deemed as open to the public and it is therefore unacceptable to use this as a forum for posting inappropriate or malicious comments about the school or any member of the school community.

In understand that Social media websites are occasionally used to fuel campaigns and complaints against schools, Headteachers, school staff, and in some cases other parents/pupils. I understand that the Governors of St Patrick’s Catholic Primary School, consider the use of social media websites being used in this way as unacceptable and not in the best interests of the children or the whole school community. Therefore any concerns I have will be shared through the appropriate channels following the schools complaints procedures. I also understand that posting libellous or defamatory comments on Facebook or other social network sites, may be reported to the appropriate ‘report abuse’ section of the network site.

NB: Please note in serious cases school will also consider legal options to deal with any such misuse of social networking and other sites.
Staff Information Code of Conduct

To ensure that staff are fully aware of their professional responsibilities when using information systems, they are asked to sign this code of conduct. Staff should consult the school’s e-safety policy for further information and clarification.

- The information systems are school property and I understand that it is a criminal offence to use a computer for a purpose not permitted by its owner.

- I will ensure that my information systems use will always be compatible with my professional role.

- I understand that school information systems may not be used for private purposes, without specific permission from the headteacher.

- I understand that the school may monitor my information systems and Internet use to ensure policy compliance.

- I will respect system security and I will not disclose any password or security information to anyone other than an appropriate system manager.

- I will not install any software or hardware without permission.

- I will ensure that personal data is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely.

- I will respect copyright and intellectual property rights.

- I will report any incidents of concern regarding children’s safety to the school Designated safeguarding lead.

- I will ensure that any electronic communications with pupils are compatible with my professional role.

- I will promote e-safety with pupils in my care and will help them to develop a responsible attitude to system use and to the content they access or create.

The school may exercise its right to monitor the use of the school’s information systems, including Internet access, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school’s information system may be taking place, or the system may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.
