How to make a herbarium

Use the instructions to make your own herbarium.

What you need:
- Sheet of heavy card
- Printer paper
- Plant
- Pen or pencil
- Glue
- Newspapers
- Heavy books
1 Place the plant between two sheets of newspaper and stack some heavy books on top. Leave it for a week to dry out and flatten.

2 Remove the books and newspaper. Glue your plant to the printer paper.

3 Cut your paper to the size you want your herbarium to be. Remember to add the name of your plant and where you found it.

4 Label the parts of your plant with a pencil.

5 Stick your completed herbarium to the heavy card.
