9. Eva is subtracting 727 from 1,000
   First I subtract 1 from each number.
   Then I subtract the two numbers.
   So 1,000 – 727 is the same as 999 – 726 = 273
   Why does Eva's method work?
   Talk about it with a partner.
   Use Eva's method to complete the subtractions.
   1,000 – 285 =  
   1,000 – 188 =  
   800 – 636 =
