St. Francis’ Nursery Unit
Equal Opportunities Policy

We at St. Francis’ Nursery Unit believe:

- each child is unique and therefore treated as an individual regardless of gender, race, culture, religion and special needs

- children regardless of gender, race, culture, religion and special needs will be encouraged to express themselves in all aspects of play

- all children are encouraged to speak to each other in a respectful manner

- both genders are encouraged to participate in tidying up

- equal opportunities are presented to the children by means of information books, posters, displays, dolls, puzzles and stories

     This policy will be adhered to with regard to staffing and the care and education of each child.
