Dear Parents,

The Year 6 children have been given the opportunity to take part in a level 2 Bikeability Course. Bikeability is designed to give children skills and confidence when cycling on the road. The course will take place in school during the weeks commencing 4th and 11th February. Children will need to have a functional bike and helmet available to use in school during that week. (We will let you know nearer the time which days your child must bring their bike into school.) The cost of the course is £10. Payments can be made to school via Payments for Schools.

Enclosed with this letter are a number of forms and information that have been given to us by the Bikeability team. It is important that you read through all of them, before signing the consent forms and returning them to school. There is also a form outlining essential checks you must carry out on the bikes before they come into school. Please note as this is an external agency coming in to lead this optional course, only children who pay will be allowed to take part in the Bikeability Course.

Kind regards,

Karen Crawford
Key Stage Two Leader

Year 6 Bikeability Level 2

Please complete and return to your class teacher by Friday 25th January
