English

Reading (30mins): Choose a fiction book to have as your reading focus this week. I have chosen Harry Potter and the Goblet of Fire (my favourite in the series!). Answer these questions:

1. Where/when does the story take place?
2. What did s/he/it look like?
3. Where did s/he/it live?
4. Who are the characters in the book?
5. Through whose eyes is the story told?

Writing (1 hour): Write a character description based on a talking animal (it can’t be a bear called Paddington!).

I would like a clear description of their appearance, “They wore amazing clothes” is not clear I’m afraid! I also want to know a little about their background – what are their likes/dislikes? How would you describe their personality?

Within your writing, I would like you to include at least six examples of punctuation for parenthesis (remember, these can be pairs of brackets, commas or dashes to add extra information).

Feel free to design your animal once you have written about them! 😊
Maths (1 hour, 15 mins)

CLICK: 382 X 49

LO: to convert improper fractions into mixed numbers.

WARNING: THIS IS A NEW TOPIC WITHIN FRACTIONS, SO WE WILL FOCUS ON IT THROUGHOUT THE WEEK!

This video will explain the maths behind them:
https://www.youtube.com/watch?v=GpumUOiG56Q

Have a go at these:

\[
\begin{align*}
8/3 & \quad 9/4 & \quad 12/5 & \quad 16/7 & \quad 19/8 \\
22/3 & \quad 31/4 & \quad 43/6 & \quad 74/5
\end{align*}
\]

Deeper Thinking

Amir says,

\[
\frac{28}{3} \text{ is less than } \frac{37}{5} \quad \text{because } 28 \text{ is less than } 37
\]

Do you agree? Explain why.

French (30-45 mins)

We have recently started learning French. With your adult or a sibling (or you could video call another badger!), have a go at lesson 2 (with audio). We already started practising this in class. 😊
